Our policy is generally to charge a fee for our professional advice and service however any commission paid to us by product providers will be specified at the time of the recommendation.
- For preparation of a strategy recommendation and implementation we quote our fees on an individual basis depending upon the type of advice required and the level of complexity. We will always advise you of our terms of engagement prior to commencing work on your behalf.

Financial Planning Advice Fees can be charged in the following manner:

- Where you choose to pay your advice fee via a percentage from an investment product our upfront fee is usually up to 2% of the value of your investment. For example, if your investment was \$100,000 we could receive up to \$2,000 ($\$100,000 \times 2\%$).
